EDUCATION

Iowa State University

Ames, IA

Bachelor of Science in Computer Science, Minor in Data Science & Applied AI

Expected May 2026

- **GPA: 3.85/4.00**, Dean's List (Jan 2023 - Present), **Top 2% Academic Ranking** (Fall 2022)
- Relevant Coursework: Data Structures, Algorithms, DBMS, OOP, Computer Architecture, Discrete Mathematics, Software Development Practices, Data Science, Theory of Computation, Advanced Programming Techniques

TECHNICAL SKILLS

Languages: Python, Java, C, C++, SQL, NoSQL, JavaScript, HTML, CSS

Databases: MySQL, Neo4j, MongoDB, AWS RDS

Tools: Git, Docker, Postman, Maven, Gradle, CI/CD, AWS S3, AWS Lambda, Knime

Frameworks: Flask, SpringBoot, React, Tailwind CSS, FastAPI, Express, Node

WORK EXPERIENCE

Database Administrator Intern

May 2025 – Present

Uline

Pleasant Prairie, WI

- Collaborating with database administrators and developers to document technical requirements and optimize database performance.
- Implementing database maintenance and security procedures to ensure data integrity and system reliability.
- Enhancing development workflows while gaining hands-on experience with industry-leading database tools and best practices.

Lead Computer Science Tutor

Aug. 2023 – May 2025

Iowa State University Help Room

Ames, IA

- Led group tutoring sessions for 4-5 students, fostering an inclusive and collaborative learning environment.
- Provided tutoring across **six courses**, including **Data Structures**, **OOP in Java**, Discrete Mathematics, and **Algorithms**.
- Assisted 15-20 students in mastering **essential data structures**, resulting in a **10-15%** improvement in exam performance.
- Supported 30+ students with **OOP in Java**, leading to a **10-20%** increase in project completion rates.

PROJECTS

AI-Powered Note-Taking App | Java, Spring Boot, MySQL, WebSockets

August 2024 – December 2024

- Designed backend infrastructure using **Spring Boot** and **MySQL**, optimizing data retrieval by **20%**.
- Integrated **OCR functionality** using **Tesseract API**, enabling **90% accuracy** in extracting text from images and improving search functionality.
- Developed real-time **live editing** features with WebSockets, reducing collaborative response time by **30%**.

DataNow | HTML, CSS, JavaScript, Python, Flask, MongoDB

October 2024–December 2024

- Built a **Flask-based web platform** that allows users to upload CSV files for analysis, achieving **98% accuracy** in user requests.
- Implemented **Pandas** and **Seaborn** for data manipulation and visualization.
- Integrated **OpenAI API** to automate Python script generation and backend processing with **95% execution accuracy**, allowing users to download results in PDF format.

LEADERSHIP & INVOLVEMENT

BackEnd Lead

Jan. 2025 – Present

AI/ML Club

Iowa State University, Ames, IA

- Conducted workshops showcasing the Gemini API, focusing on fine-tuning models, designing effective prompts, and integrating multi-model (image) prompts.
- Taught the 5-step process of how Generative AI works, covering preprocessing, pre-trained models, fine-tuning, advanced fine-tuning, and model deployment.
